

## HILTON CULTIVATES WORLD-CLASS LEARNING WITH TRANSLATIONS.COM'S MULTILINGUAL E-LEARNING SOLUTION

In order to cultivate world-class learning and development, Hilton partnered with Translations.com to develop multilingual e-learning courses for its international workforce. Legally required to produce localized courses within a limited time after the English versions, and tied to specialized terminology, the project was technical and against the clock. Translations.com provided Hilton with a one-stop-shop solution, providing content creation, voice talent and recording, and functional testing prior to release, allowing Hilton to meet its in-market deadlines and enjoy considerable savings by leveraging translation memory.
