

# Global mobile apps... how refreshing

Translations.com provides emergency testing  
of Coca-Cola's Ice Flick mobile app

“Recently, our Ice Flick mobile app required urgent testing in Lithuanian, Latvian, and Estonian on both iPhone and Android devices. Through its global testing centers in the US, Europe, and the Middle East, Translations.com was able to ramp up and deliver in just 24 hours.

It's that level of responsiveness and scalability that makes them such a valuable partner to us.”

– International Customer Manager  
Coca-Cola

Translations.com is proud to support Coca-Cola in the adaptation and rollout of their digital marketing campaigns.
